ABOUT ME

Dedicated Front-End Developer with a passion for building immersive, animated web experiences using ReactJS, GSAP, and modern tools. I bring ideas to life with precision, performance, and pixel-perfect execution. With a results-driven mindset, I'm committed to delivering high-quality, responsive interfaces that make a real impact.

EXPERIENCE

Frontend ReactJS Developer (intern)   *1ˢᵗ july - current*

KDY\S LAB (Pvt) Ltd (NASTP). onsite   *Karachi,Pakistan*

Experienced in ReactJS, JavaScript, Context API, and CSS, with a focus on animated and responsive functional components. At Shfiara, I added new products, fixed bugs, and implemented redirection features. Also worked on KDYS Admin Dashboard, CRM, and HRM modules using GSAP, Axios, and React Router to enhance functionality and user experience.

WORK EXPERIENCE - FREELANCING   *june 2024- 2025*

I create Awwwards-winning animated websites

Ochi – Awwwards-Winning Website Clone with Advanced Animations

Technologies: ReactJS, GSAP, Locomotive Scroll, Framer Motion, HTML, CSS, JavaScript

- Recreated the award-winning Ochi agency website, focusing on advanced animations and a premium user experience.
- Implemented smooth scrolling and parallax effects using Locomotive Scroll, enhancing visual depth and interactivity.
- Utilized GSAP and Framer Motion to develop fluid page transitions and micro-interactions for a seamless, animated interface.
- Ensured full responsive design, delivering consistent performance across all screen sizes.
- Developed using ReactJS for a component-based, scalable frontend architecture.

Live Demo: Ochi-product=Agency (https://ochi-design-production.netlify.app/)

3D Animated Tabaccino Clone — June 2025

Technologies: ReactJS, GSAP, Locomotive Scroll, Framer Motion, HTML, CSS, JavaScript

- Developed a fully animated 3D website clone of Tabaccino within 15 days, emphasizing creative frontend architecture.
- Used GSAP and Framer Motion to implement smooth page transitions, scroll-based animations, and micro-interactions.
- Focused on a responsive UI to ensure seamless performance across desktop, tablet, and mobile devices.
- Leveraged ReactJS component architecture for clean and modular code, enhancing maintainability and scalability.
- Replicated 3D effects and animated layouts to mirror the original site's visual impact and user experience

Live Demo: **3D Animated Tabaccino Clone** (https://tabaccino.netlify.app/)
